RELEVANT PROFESSIONAL EXPERIENCE

Senior Software Developer   Sep 2024 – Jun 2025
Sunniva Solar GMBH   Business Bay, United Arab Emirates

Results-driven Power BI Developer with extensive experience in designing, developing, and maintaining secure, scalable, and insightful business intelligence solutions. Proven ability to lead data-driven initiatives, architect interactive dashboards, and optimize data models for performance. Adept at collaborating with cross-functional teams to translate business goals into actionable insights, ensuring accuracy and quality through thorough testing and validation.

- **Web Application Development**: Web Application Development: Architect, develop, and maintain responsive, high-performance web applications and e-commerce platforms.
- **Data Visualization & Reporting:** Design, build, and maintain interactive dashboards and reports using Power BI, enabling real-time decision-making across finance, operations, and executive teams.
- **Server & Cloud Management**: Deploy, monitor, and scale applications on AWS and Google Cloud, ensuring security and performance optimization.
- **API Development & Integration**: Design and implement RESTful and GraphQL APIs, integrating third-party services for enhanced functionality.
- **Version Control**: Utilized Git and GitHub for managing code changes and collaborating across departments
- **Database Management**: Administer MySQL, PostgreSQL, and MongoDB, optimizing queries and enhancing performance.
- **Team Leadership & Mentorship**: Guide and mentor junior developers, conduct code reviews, and enforce best development practices to drive continuous improvement.
  - o Led a team of 10 junior developers, enhancing team productivity by 25%.
  - o Integrated secure payment gateways, improving transaction success rates by 30%.

Full Stack Developer

Full Stack Developer　　　　　　　　　　　　　　　　　　　　Jun 2022 - Sep 2024
Middle East Fuji Group LLC　　　　　　　　　　　　　　　　Al-Quoz, United Arab Emirates

Full Stack Developer with expertise in both static and e-commerce websites. Bring experience in training and mentoring junior web developers. The role involves working with a group of companies, ensuring the seamless operation of their online platforms. Extensive knowledge in various e-commerce platforms, AWS servers, Google Cloud, 3rd party APIs, CodeIgniter programs, and database management.

- **Web Development**: Design, develop, and maintain static and e-commerce websites for a group of companies. - Implement responsive and user-friendly interfaces to enhance the user experience. - Collaborate with UI/UX designers to translate design wireframes into functional web applications.
- **E-commerce Platforms**: Managed and customized e-commerce platforms such as Shopify, and WooCommerce, ensuring optimal performance. - Implemented and optimized online shopping carts, payment gateways, and product catalogs. - Stayed updated on emerging trends and technologies in e-commerce.
- **Server Management**: Deploy, manage, and monitor AWS and Google Cloud applications. – Ensure server security, scalability, and performance.
- **Training and Mentorship**: Provide training and mentorship to web developers, fostering skill development and knowledge transfer. - Conduct code reviews to maintain coding standards and best practices.
- **API Integration**: Integrate 3rd party APIs to enhance website functionality and connectivity. Troubleshoot and debug API-related issues.
- **Database Management**: Utilized SQL and MySQL for efficient database management. – Optimize database queries and performance.

RECENT PROJECTS | PORTFOLIO

Middle East Fuji Group – Oracle, Odoo, SAP, Cloud Infrastructure
Customized and integrated internal systems to streamline cross-functional workflows across departments.

Sunniva Solar – Vendomnia Trading – Shopware, React, PHP Frameworks
Led a cross-functional team to develop plugins for integrating Amazon, eBay, Kaufland, and Otto marketplaces.

E-commerce Web Store - JSON API, Google SDK, AWS
An online store using PHP, JS, MySQL, and AWS hosting. Live order tracking and secure payments via NETWORK.AE.

Warehouse Management System - Odoo, AS400
Streamlined Middle East Fuji's end-to-end business workflow—from data upload in Dubai to order processing in the Philippines, quotation approval, warehouse fulfillment, and final delivery via logistics.

Other Projects: diaflower.com, industrialsolution.ae, vendomnia.com, asgharfurniture.ae

EDUCATION

Computer Science, Bachelor of Science　　　　　　　　　　　　　　　　　　　　2023
Girne American University - Cyprus

Rapid Web Application Development　　　　　　　　　　　　　　　　　　　　2018
Institute of Java and Software Engineering - Sri Lanka
